

Hello!

Thank you for attending my smartphone video film school! I hope you got what you were looking for out of it and you're already planning your first big video. This folder contains lots of resources for you:

1. PDF of the workshop deck
2. Story brief template
3. Multiple script and shot list templates
4. Handy shooting guide one-sheets
5. A large-scale video budget template
6. A gear checkout list (for larger teams who need to track video gear as it leaves the offices for shoots)

Also, below are two links — the gear list I referenced and the videos I showed in the workshop.

Gear list: <https://www.bnh.com/wish/D567B79085/>

Videos I showed: <https://vimeopro.com/justinallen/2-day-video-workshop> and <https://www.youtube.com/watch?v=-ykD7g6FFLQ>

If you have questions about anything on the list or anything we discussed during the day, please don't hesitate to email me.

Happy filming!
Justin
